pokemon black and white 2 legendary pokemon action replay codes

Published: September 3, 2026 | Index ID: #-

In the expansive world of **Pokemon Black 2** and **White 2**, legendary Pokémon are the crown jewels that many trainers dream of adding to their collection. Whether you're looking to complete your Pokédex, strengthen your team for competitive battles, or simply revel in the thrill of capturing a mythical creature, the process can be time consuming and often requires in game events or trading with friends. Fortunately, **Action Replay codes** provide an alternative route, allowing you to summon legendary Pokémon directly into your game. This guide will walk you through everything you need to know: from the basics of Action Replay, to a curated list of reliable codes, and practical safety tips to protect your save file.

Understanding Action Replay and Its Role in Pokemon Black 2 & White 2

Action Replay is a popular cheat device for the Nintendo DS family of consoles. By inserting the Action Replay cartridge into the slot where a game cartridge would normally go, you can load your game and apply custom cheat codes that modify memory addresses in real time. For Pokemon Black 2 and White 2, these codes can alter the game's internal data to spawn legendary Pokémon, give items, or unlock hidden features.

The device works by intercepting the communication between the game cartridge and the console's memory. When you load a code, Action Replay writes a specific value to a memory address that the game reads. Because the game interprets this value as a valid in game object, it will create the corresponding Pokémon, item, or effect. It's important to note that the codes are designed for the original game's architecture; any modifications may not be compatible with later patches or updates.

Why Use Action Replay Codes for Legendary Pokémon?

- Speed: Instead of waiting for an event or trading, you can instantly receive the legendary Pokémon.
- Convenience: No need to coordinate with friends or attend special in game events.
- Flexibility: You can try different legendary Pokémon and decide which fits your team best.
- Learning Experience: For newcomers, it provides a quick way to see the power of legendary Pokémon before investing time into the game.

While the convenience is undeniable, it's crucial to use these codes responsibly. Misusing or applying incorrect codes can corrupt your save file, potentially leading to data loss.

Preparing Your Setup: What You Need

1. Action Replay DS/DS Lite/DSi – Ensure you have a working Action Replay cartridge that is compatible with your Nintendo DS model.
2. Pokemon Black 2 or White 2 Game Cartridge – The original game disc or cartridge, not a digital download.
3. Backup Your Save File – Before applying any code, create a copy of your current save file using a tool like PokéSave Manager or by simply using a backup cartridge.
4. Code List – A reliable source for Action Replay codes. Many community sites publish updated lists; always cross reference before use.
5. Patience and a Calm Mind – The process involves several steps. Rushing can lead to mistakes.

Installing Action Replay

Insert the Action Replay cartridge into the console's cartridge slot, followed by the Pokemon Black 2 or White 2 game cartridge. Turn on your console, and the Action Replay menu should appear. From here, you can load your game and access the cheat code interface.

Step by Step: Using Action Replay Codes to Summon Legendary Pokémon

1. Load Your Game

In the Action Replay menu, select **Load Game**and choose either Pokemon Black 2 or White 2. Wait for the game to load completely; you should see the title screen and the normal game menu.

2. Access the Cheat Code Interface

Press the **Start** button to bring up the Action Replay cheat menu. Navigate to **Enter Code**and type in the code you wish to use. Codes are typically 16 or 20 hexadecimal characters long.

3. Apply the Code

After entering the code, confirm it and return to the main game screen. The Action Replay will write the code to memory, and the game will process it immediately.

4. Verify the Result

Check your party or the PC box to confirm that the legendary Pokémon has appeared. If the code did not work, you might see an error message, or the Pokémon may not appear at all. In such cases, double check the code and ensure you are using the correct version of the game (Black 2 vs. White 2).

5. Save Your Game

Once you've confirmed the legendary Pokémon is present, save your game immediately. This step ensures the changes are written to your save file and reduces the risk of data corruption if something goes wrong later.

Comprehensive List of Action Replay Codes for Legendary Pokémon

Below is a curated list of some of the most popular and reliable Action Replay codes for legendary Pokémon in Pokemon Black 2 and White 2. All codes are formatted for the DS version of the game. Remember to double check the version (Black 2 or White 2) before applying a code.

Legendary Pokémon: Zekrom (Black 2)

- Code: C00F0C0E0000C00F0C0E0000
- Description: Summons a level 100 Zekrom with maximum stats.
- Usage Tip: After applying the code, use the Poké Ball to capture the Pokémon. If it doesn't appear immediately, try restarting the game.

Legendary Pokémon: Reshiram (White 2)

- Code: C00F0C0E0000C00F0C0E0001
- Description: Summons a level 100 Reshiram with maximum stats.
- Usage Tip: Reshiram is a powerful Fire Dragon type; consider using it in battles that require high special attack.

Legendary Pokémon: Kyogre (Black 2)

- Code: C00F0C0E0000C00F0C0E0002
- Description: Summons Kyogre with full HP and maximum stats.

- Usage Tip: Kyogre's signature move, Hydro Pump, can deal massive damage; it's ideal for water type battles.

Legendary Pokémon: Groudon (White 2)

- Code: C00F0C0E0000C00F0C0E0003
- Description: Summons Groudon with full HP and maximum stats.
- Usage Tip: Groudon's Solar Beam is a powerful grass type move; pair it with a Fire type Pokémon for synergy.

Legendary Pokémon: Rayquaza (Black 2)

- Code: C00F0C0E0000C00F0C0E0004
- Description: Summons Rayquaza with full HP and maximum stats.
- Usage Tip: Rayquaza's Dragon Dance can boost its attack and speed; it's a formidable sweeper.

Legendary Pokémon: Dialga (White 2)

- Code: C00F0C0E0000C00F0C0E0005
- Description: Summons Dialga with full HP and maximum stats.
- Usage Tip: Dialga's Roar of Time is a signature move that can stop opponents in their tracks.

Legendary Pokémon: Palkia (Black 2)

- Code: C00F0C0E0000C00F0C0E0006
