Understanding the Trophy System in Uncharted 4

Uncharted 4 follows the standard trophy structure found on the PlayStation 4 platform. Each trophy is categorized by color, indicating its difficulty level:

- Bronze – The most common trophies. Usually require a simple task or a small collection.
- Silver – A step up in complexity. Often involve multiple steps or a higher quantity.
- Gold – The challenging trophies. They typically demand skill, speed, or a combination of both.
- Platinum – The ultimate reward. Awarded only after all other trophies in the game are collected.
