Seat Selection

If you haven’t selected a seat during booking, you can do so during check in. For premium seats, you may need to pay an additional fee.

Flight Status and Alerts

Under “Flight Status,” you can view real time updates. If there’s a delay or cancellation, MyIDTravel will automatically notify you and offer rebooking options.

Managing Baggage

Check the baggage allowance for your fare class. If you need to add extra luggage, do so before check in. The system will adjust the price and update your e ticket accordingly.

Flight Changes and Cancellations

In case you need to change your flight, go to “Bookings” and select the flight. Choose “Modify” or “Cancel.” Malaysia Airlines’ policies apply, but MyIDTravel often provides a smoother interface and may offer a small fee waiver for frequent users.

Collecting Loyalty Points

After completing the flight, your points will automatically credit to your Malaysia Airlines frequent flyer account. Check the “Rewards” section to see the updated balance.
